MEET,

GABAI

Your Offline-First
AI-Powered Personal Safety Assistant

PROBLEM

- Vulnerable to typhoons, floods, landslides, earthquakes, and fires.
-Unexpected or situational emergency events can happen anytime, anywhere.
- Unreliable or unavailable internet connectivity in many areas.
- Difficulty accessing essential safety information and emergency updates especially in remote areas.

OUR SOLUTION

GABAI is an offline-first AI-powered mobile app built to provide accessibility, to reduce risk in time of disaster or emergency and basic guidance to stay safe when a person doesnt know what to do next, aims for residents of marinduque most esp. to those who are in the remote areas.

GabAI provide platform for:

- Offline first AI Personal Safety Assistant
- Basic First-Aid Instructions
- Disaster Preparedness Information
- Before, During, and After Safety Procedures
- Locally Stored Emergency Contacts

KEY FEATURES OF GABAI

OFFLINE FIRST AI ASSISTANT

On-device AI that anyone can rely on when unexpected events or situation hit’s and you dont know what’s next

FIRST AID GUIDE

Step-by-step basic first-aid instructions for common emergency situations.

DISASTER PREPAREDNESS

Guides with Before, During, and After safety instructions.

EMERGENCY CONTACTS

Locally stored emergency contact information.

OUR TARGET BENEFICIARIES

Residents in Marinduque (remote areas)

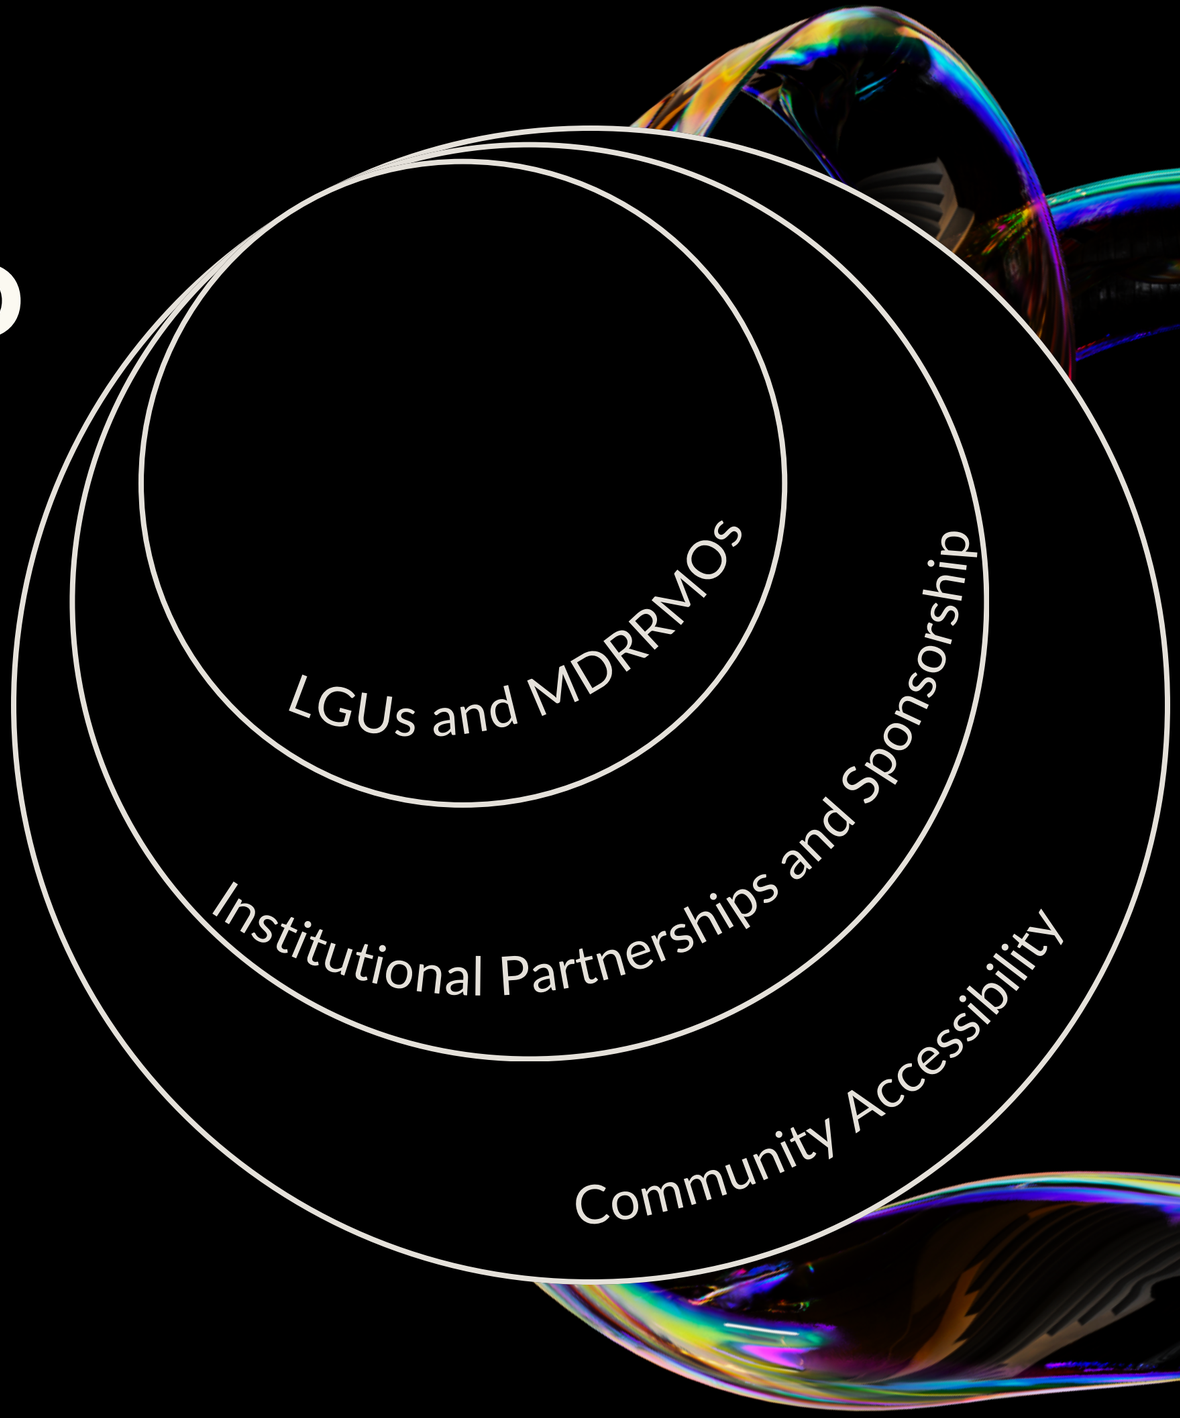

Barangay Communities

Schools

Local Institutions

BUSINESS MODEL AND SUSTAINABILITY

GabAI aims to establish a sustainable, community-centered solution through potential LGU support and institutional partnerships, ensuring that accessible first-aid and disaster preparedness information reaches communities, even without internet connectivity.

WHEN DISASTER STRIKES, INTERNET GOES OFF, EVERY SECOND MATTERS.

Don’t let the lack of internet become the lack of information.

GABAI

Be informed. Be prepared. Be ready.
always know what’s next.
